AJITH KUMAR K

MERN STACK DEVELOPER

CARRER VISION

As a MERN Stack Developer Intern, I am passionate about learning and applying my skills in web development using the MERN (MongoDB, Express.js, React.js, Node.js) stack. I am eager to contribute to projects, gain practical experience, and grow as a developer while working in a collaborative team environment.

WORK EXPERIENCE

Frontend:

Diary manger

- Developed user interface components using React.js
- Implemented responsive design for seamless user experience across devices.
- Integrated state management with Redux for efficient data handling.
- Utilized React Router for client-side routing and navigation.

Backend:

- Designed RESTful APIs using Node.js and Express.js.
- Utilized MongoDB for database storage and management.
- Implemented authentication and authorization using JWT tokens.

mini project

- Shopping Cart(React)
- URL Authentication
- Gmail Clone
- Axios
- Todo list
- Password reset
